PRODUCTS

At GenOasis, our products are the foundation of innovation and sustainability. We offer a comprehensive range of high-performance solutions across water treatment, industrial applications, and laboratory environments.

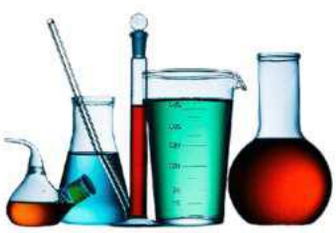
Explore our offerings and discover how GenOasis products can empower your operations.

Pressure Vessels & Tanks
(RO pressure vessels, FRP media tanks)

Filtration Systems
(Cartridge filters, filter housings, bag filters, self-cleaning filters, strainers)

RO & Ultrafiltration Membranes / Nano membranes

Water Pumps & Pump Skid Packages
(Centrifugal, Submersible, Screw, Air operated, swimming pool)



Water Treatment Chemicals
(Antiscalants, RO membrane cleaners, biocides, polymers, generic chemicals)

Sand Media/ Activated Carbon/ Ion Exchange Resins/Activated Filter Media

Disinfection Systems
(UV sterilizers, ozone generators)

Valves, Couplings & Fittings for RO & Water Treatment Plants

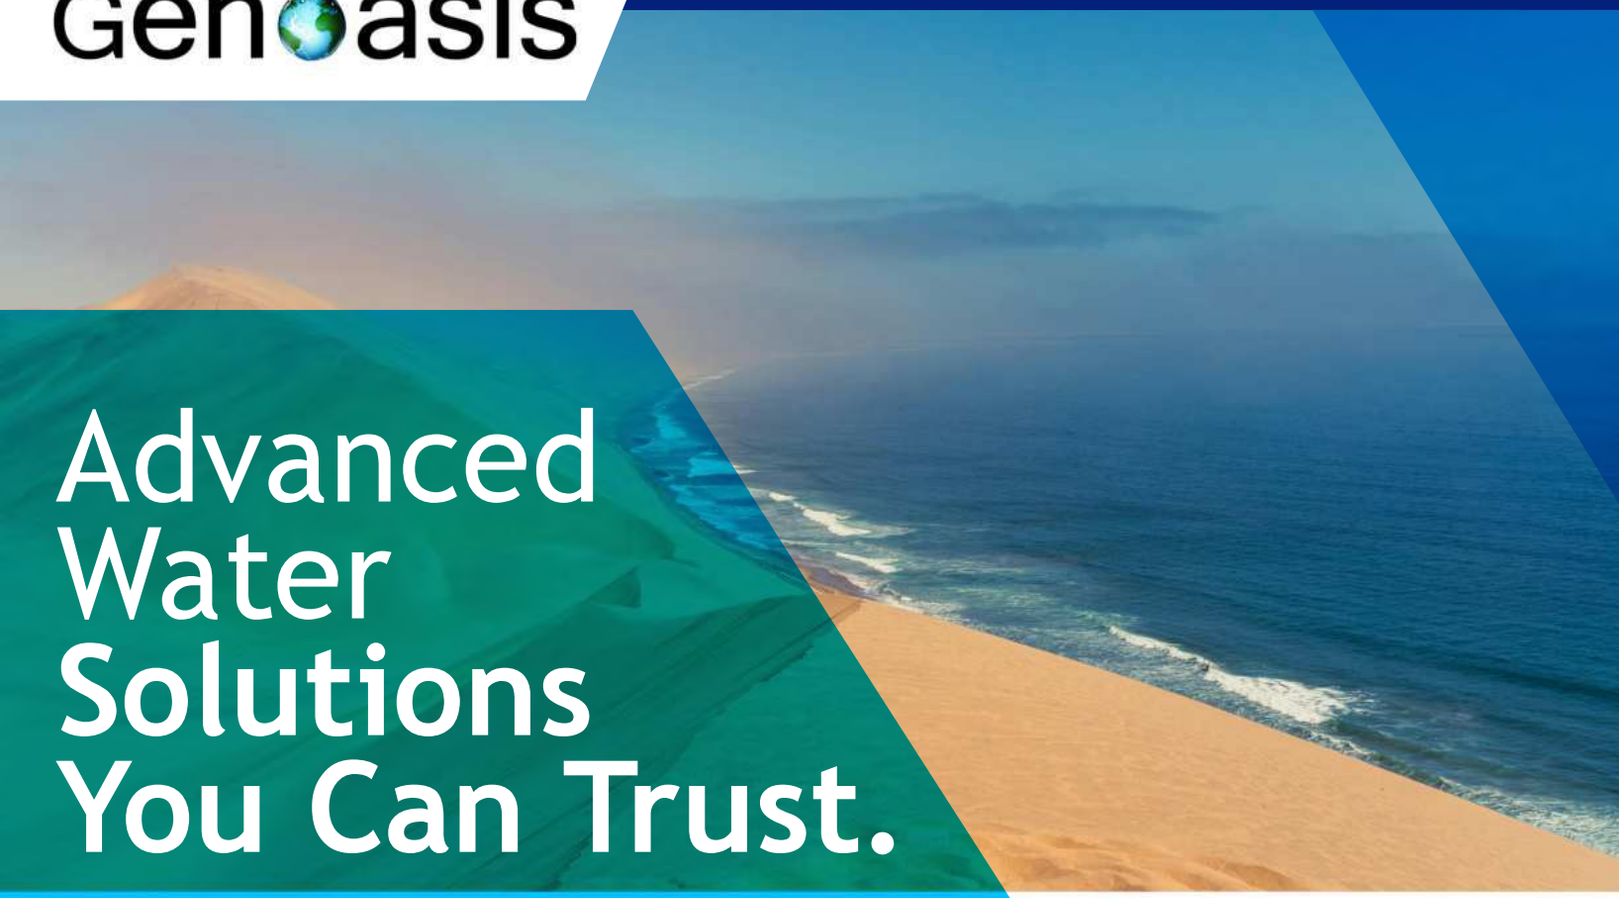
Diffuser & Aération System
(Coarse, Fine, Micro & Nano bubble)

Biological Media
(MBBR media, Bio block media, Bio chip media, SAFF media)

Settling, Dewatering & Odour Control
(Tube settler media, dewatering bags, odour control system)

Instrumentation & Lab Equipment
(Measurement devices, testing kits, lab apparatus)

Genoasis



Advanced Water Solutions You Can Trust.
